

Halimah Yusuf

UI/UX Designer | Brand Designer

 Abuja, NG  halimah-yusuf

ABOUT

I help startups, SMEs, and forward-thinking organizations transform ideas into meaningful brand and digital experiences.

As a Brand Designer and UI/UX Designer with 2+ years of experience, I solve challenges related to brand perception, user engagement, and product usability by creating cohesive visual identities and intuitive digital experiences. Delivered 50+ assets including logo systems, campaign creatives, wireframes, and high-fidelity prototypes using Figma and Canva, in collaboration with content, product, and development teams. Brings an analytical background in human physiology that drives user-centred, behaviour-informed design decisions.

My approach combines design strategy, user-centered thinking, and AI-enhanced creative workflows to deliver solutions that strengthen brands, improve user experiences, and support measurable business outcomes.

WORK

AI Intern – UX/UI

Flyrank AI | Remote

Jul 2026 - Present

Interning at FlyRank AI as an AI intern, focusing on UI / UX Design.

Graphics Design Internship

TrueMinds Innovation Ltd | Remote

Feb 2026 - Apr 2026

Worked on real-world branding projects, developing visual identities, marketing assets, and design documentation for small business clients. Contributed to building a user-centered, visually consistent learning platform designed to improve collaboration, engagement, and skill development for interns across multiple disciplines.

- Developed a complete brand identity concept for a food and confectionery business
- Created a structured color palette system, balancing multiple client-requested colors into a clean and usable brand hierarchy
- Designed a minimal, scalable logo suitable for both digital and print applications
- Produced brand guideline documentation, ensuring consistency across future visual applications
- Designed key marketing assets including social media banners, promotional flyers, and brand visuals
- Wrote and presented a design rationale, explaining color choices, visual balance, and branding direction in a clear, client-friendly format
- Provided professional design recommendations to improve long-term brand usability, clarity, and scalability
- Developed and executed the visual identity system for TalentFlow Learning Management System, including logo refinement, color palette, and typography guidelines
- Collaborated closely with UI/UX designers and project managers to align branding with product experience
- Supported the Social Media team by delivering consistent, high-quality visual content that improved engagement and strengthened brand recognition.

Graphic Design Intern

Medvive Technologies

Nov 2024 - Mar 2025, Nigeria

Enhanced brand communication as a Graphic Design Intern, focusing on creating visually compelling and data-driven digital content for target audiences.

- Designed and produced data-rich infographics, enhancing the communication of complex medical information for target audiences.
- Applied advanced typography, color theory, and composition principles to create visually compelling designs that align with brand guidelines.

- Managed multiple simultaneous design projects within fast-paced environments, consistently meeting tight deadlines and project requirements.

UI UX Design Intern

Africa Agility Foundation

Oct 2022 - Dec 2022, Remote, Nigeria

Contributed to user-centered product development, leading a team to conceptualize and design a travel application.

- Led a design team through the end-to-end development of a travel application, leveraging Figma and Miro for collaborative prototyping and ideation.
- Conducted comprehensive user research, including user interviews and persona development, to inform data-driven design decisions and optimize user experience.
- Developed detailed storyboards and user flows, ensuring intuitive navigation and enhancing user journey visualization within the application.

UI UX Design Intern

Side Hustle

Aug 2022 - Sep 2022, Nigeria

Gained foundational UI/UX expertise through practical application of design thinking methodologies and user-centered design principles.

- Applied Design Thinking methodologies to solve complex user problems, progressing from ideation to high-fidelity prototypes.
- Conducted user research, developed detailed user personas, and designed information architecture to optimize user flows and content organization.
- Executed iterative design processes, creating low, mid, and high-fidelity wireframes and prototypes for effective user interface visualization and testing.

UI UX Design Intern

Zuri

May 2022 - Aug 2022, Nigeria

Collaborated cross-functionally as a UI/UX Design Intern to develop and implement user-centric designs for software applications.

- Collaborated with a Senior Developer to design and build software applications, specifically contributing to a library of authentication codes.
- Designed comprehensive wireframes and high-fidelity user interface screens using Figma, ensuring alignment with development requirements.
- Facilitated seamless collaboration with developers throughout the project lifecycle, ensuring successful integration of UI/UX designs into web development projects.

EDUCATION

Physiology

• University of Ilorin • BSc - Ilorin, Nigeria • Nov 2019 - Aug 2024

SKILLS

Design Execution | Wireframing, Prototyping, Visual Design Systems, UI Design, Brand Identity, Typography, Color Theory
